This Act makes various changes to the homestead credit for 2017 claims filed in 2018 and thereafter and for taxable years beginning on or after January 1, 2018.

If the claimant or spouse, if married, is 62 or over or disabled

To be eligible to claim the homestead credit, the claimant or the claimant's spouse, if married, must be age 62 or over or the claimant must be disabled. If the claimant is not age 62 or over or disabled, see "If the claimant and spouse, if married, are under age 62 and not disabled" that follows.

With regard to a claimant who is disabled, the claimant must provide with the claim proof that his or her disability is in effect for the taxable year to which the claim relates. Proof of disability may be demonstrated by any of the following:

- A statement from the Veteran's Administration certifying that the claimant is receiving a disability benefit due to 100 percent disability.
- A document, or copy of a document, from the Social Security Administration stating the date the disability began.
- A statement from a physician stating the beginning date of the disability and whether the disability is permanent or temporary. "Physician" means an individual possessing the degree of doctor of medicine or doctor of osteopathy or an equivalent degree as determined by the Wisconsin medical examining board and holding a license granted by the medical examining board.

If the claimant and spouse, if married, are under age 62 and not disabled

No credit is allowed if the claimant had no earned income in the taxable year to which the claim relates.

All claimants

For taxable years beginning on or after January 1, 2018, the amount of disqualified losses must be included in household income. "Disqualified losses" means the sum of the following amounts, exclusive of net gains from the sale or exchange of capital or business assets and exclusive of net profits:

- Net capital loss
- Net loss from sales of business property, excluding loss from involuntary conversions
- Net loss from rental real estate, royalties, partnerships, tax-option (S) corporations, trusts, estates, and real estate mortgage investment conduits
- Net farm loss

Exception: The addition to income does not apply to a claimant who is a farmer and whose primary income is from farming, and the farming generates less than \$250,000 in gross receipts from the operation of the farm premises in the year to which the claim relates.

"Farmer" means any person engaged in farming.

"Farming" means the operation of farm premises owned or rented by the operator.

"Farm premises" means areas used for operations, but does not include other areas, greenhouses or similar structures unless used principally for the production of food and farm plants.

Operation of farm premises includes:

- Planting and cultivating of the soil
- Raising and harvesting of agricultural, horticultural or arboricultural crops
- Raising, breeding, tending, training and management of livestock, bees, poultry, fur-bearing animals, wildlife or aquatic life, or their products
- Processing, drying, packing, packaging, freezing, grading, storing, delivering to storage, to market or to a carrier for transportation to market, distributing directly to consumers or marketing any of the above-named commodities, substantially all of which have been planted or produced thereon
- Clearing of such premises and the salvaging of timber and management and use of wood lots thereon, but not including logging, lumbering or wood cutting operations unless conducted as an accessory to other farming operations
- Managing, conserving, improving and maintaining of such premises or the tools, equipment and improvements thereon and the exchange of labor, services or the exchange of use of equipment with other farmers in pursuing such activities

The operation for not to exceed 30 days during any calendar year, by any person deriving the person's principal income from farming, of farm machinery in performing farming services for other farmers for a consideration other than exchange of labor is deemed farming. Operation of such premises is deemed to include also any other activities commonly considered to be farming whether conducted on or off such premises by the farm operator.

Effective September 23, 2017

"Broadcaster" means a television or radio station licensed by the federal communications commission, a television or radio broadcast network, a cable television network, or a television distribution company. "Broadcaster" does not include a cable service provider, a direct broadcast satellite system, or an Internet content distributor.

For taxable years beginning after December 31, 2018

A broadcaster's gross receipts from advertising are in this state only if the advertiser's commercial domicile is in this state. With regard to a broadcaster who is a member of a combined group, the above does not apply to the gross receipts of the members who are not broadcasters.

A broadcaster's gross royalties and other gross receipts received for the use or license of intangible property are sales in this state only if the commercial domicile of the purchaser or licensee is in Wisconsin and the purchaser or licensee has a direct connection or relationship with the broadcaster pursuant to a contract under which the royalties or receipts are derived. With regard to a broadcaster who is a member of a combined group, the above does not apply to the gross royalties and receipts of the members who are not broadcasters.

The amount of a broadcaster's gross receipts from advertising and the use or license of intangible property shall be adjusted as follows:

- a. Determine the amount of the numerator of the sales factor for a broadcaster as provided in the paragraphs above.
- b. Multiply .01 by the total amount of the domestic gross receipts of the broadcaster from advertising and royalties and other gross receipts for the use or license of intangible property.
- c. Determine the numerator of the sales factor for a broadcaster by substituting the amount

determined under paragraph b for the total amount determined under paragraph a.

- d. Except as provided in paragraph e, if the amount of the numerator determined under paragraph c is more than the amount determined under paragraph a, substitute the amount of total gross receipts determined under paragraph b for the total amount of gross receipts determined under paragraph a. For purposes of this paragraph, the amount of the numerator for a broadcaster is the amount determined under paragraph c.
- e. If the amount of the numerator computed under paragraph c is more than 140% of the amount determined under paragraph a, adjust the total amount of the gross receipts under paragraph a so that the amount of the numerator for a broadcaster is 140% of the numerator otherwise determined under paragraph a.

Effective September 23, 2017, if the same qualified rehabilitation expenditures are used to claim the federal rehabilitation tax credit and Wisconsin supplement to the federal historic rehabilitation tax credit, and the federal credit is required to be repaid, the Wisconsin credit must also be repaid.

The Wisconsin Economic Development Corporation (WEDC) may not certify a taxpayer for the credit unless the taxpayer is subject to tax under Chapter 71 of the Wisconsin Statutes; however, WEDC may certify a nonprofit entity under 501(c)(3) of the Internal Revenue Code (IRC) if the nonprofit intends to sell or transfer the credit. In addition, WEDC may certify a nonprofit entity not described under IRC 501(c)(3) if a proposal for certification is submitted to the Joint Committee on Finance for approval.

Beginning July 1, 2018, WEDC may not certify more than \$500,000 in tax credits per claimant for all projects occurring on the same parcel of land.

12. Enterprise Zone Jobs Credit Expanded

([2017 Wis. Act 58](#), create sec. 71.28(3w)(bm)5., effective September 20, 2017)

An additional credit is allowed if a claimant has retained the minimum number of full-time employees and maintained average zone payroll for the taxable year equal to or greater than the base year. The amount of the credit is a percentage, as determined by WEDC, of the claimant's zone payroll paid in the 12 months prior to the certification date to the claimant's full-time employees in the enterprise zone. The full-time employee's annual wages must be greater than the amount determined by multiplying 2,080 by 150% of the federal minimum wage in a tier I county or municipality or greater than \$30,000 in a tier II county or municipality. The maximum amount claimed by a claimant for a taxable year shall not exceed \$2,000,000 and may not be claimed for more than five consecutive taxable years.

13. Electronics and Information Technology Manufacturing Zone Credit

([2017 Wis. Act 58](#), amend secs. 71.21(4)(a), 71.26(2)(a)4., 71.30(3)(f), and 71.34(1k)(g), and create sec. 71.28(3wm), effective September 20, 2017)

([2017 Wis. Act 59](#), renumber sec. 71.28(3wm)(c)1. and 2. to 71.28(3wm)(c), and 71.28(3wm)(d)1. and 2. to 71.28(3wm)(d), and amend as renumbered, and renumber sec. 71.28(3wm)(a)6. to 71.28(3wm)(a)4., 71.28(3wm)(a)7. to 71.28(3wm)(a)5., and 71.28(3wm)(a)8. to 71.28(3wm)(a)6., and amend sec. 71.28(3wm)(bm), effective September 23, 2017)

A new refundable credit, electronics and information technology manufacturing zone credit, is available. A claimant may claim as a credit an amount calculated as follows:

- a. Determine the zone payroll for the taxable year for full-time employees employed by the claimant.
- b. Multiply the amount determined above by 17%.

An additional credit may be allowed for up to 15% of the claimants significant capital expenditures in the zone in the taxable year.

"Zone payroll" is defined as the amount of state payroll that is attributable to wages paid by the claimant to full-time employees for services that are performed in a zone designated under sec. 238.396 (1m), Wis. Stats., or that are performed outside the zone, but within the state, and for the benefit of the operations within the zone. Zone payroll does not include the amount of wages paid to any full-time employees that exceeds \$100,000.

"Full-time employee" means an individual who is employed in a job for which the annual pay is at least \$30,000 and who is offered retirement, health, and other benefits that are equivalent to retirement, health, and other benefits offered to an individual who is required to work at least 2,080 hours per year.

In order to claim either of these credits, the person must be certified by WEDC. A copy of this certification for tax benefits must be included with the claimant's Wisconsin income tax return. The amount of the credit computed must be added to the claimant's income in the year the credit is computed. No interest is paid on any refunds.

Partnerships, limited liability companies, and tax-option (S) corporations may not claim the credit under this subsection, but the eligibility for, and the amount of, the credit are based on their payment of amounts described above. A partnership, limited liability company, or tax-option (S) corporation shall compute the amount of credit that each of its partners, members, or shareholders may claim and shall provide that information to each of them. Partners, members of limited liability companies, and shareholders of tax-option (S) corporations may claim the credit in proportion to their ownership interests.

The department has full power to administer the credit and may take any action, conduct any proceeding and proceed as it is authorized in respect to income and franchise taxes imposed. The income and franchise tax provisions relating to assessments, refunds, appeals, collection, interest and penalties apply to this credit.

The credit must be claimed within four years of the unextended due date on which the tax return was due.

- Enterprise zone jobs credit
- Electronics and information technology manufacturing zone credit
- Business development credit

15. Reallocation of Early Stage Seed Credit Removed

([2017 Wis. Act 59](#), amend secs. 71.28(5b)(d)3. and 71.47(5b)(d)3., effective September 23, 2017)

See Item A.22.

C. Sales and Use Tax

1. Sales and Use Tax Exemption Created for Materials, Supplies, Equipment, and Landscaping Services Used to Build a Facility in an Electronics and Information Technology Manufacturing Zone

([2017 Wis. Act 58](#), create sec. 77.54(65), effective September 20, 2017)

A sales and use tax exemption is created for the sale of building materials, supplies, equipment, and landscaping services to; and the storage, use, or other consumption of the same property and services by; owners, lessees, contractors, subcontractors, or builders if that property or service is acquired solely for, or used solely in, the construction or development of a facility in an electronics and information technology manufacturing zone.

In order for the exemption to apply, the zone must be designated as an electronics and information technology manufacturing zone under sec. 238.396(1m), Wis. Stats. An additional requirement is that the capital expenditures for the construction or development of such facilities must be eligible to be claimed as a credit under sec. 71.07(3wm)(bm) or sec. 71.28(3wm)(bm), Wis. Stats., as certified by Wisconsin Economic Development Corporation.

2. County Tax Revenues Exception

([2017 Wis. Act 58](#), amend sec. 77.70 and create sec. 66.0621(3m), effective September 20, 2017)

County sales and use taxes may only be used for the purpose of directly reducing the property tax levy.

Exception: A county in which an electronics and information technology manufacturing zone under sec. 238.396(1m), Wis. Stats., exists may issue bonds whose principal and interest are paid only through the county sales and use tax revenues. The county may not repeal or obstruct the collection of the tax until all payments of principal and interest have been made or are provided for.

3. Effective Date Postponed for Private Label Credit Card Company Bad Debt Deductions

([2017 Wis. Act 59](#), amend sec. 6(1) of 2013 Wis. Act 229 so that the treatment takes effect retroactively to July 1, 2017, and first applies to bad debts resulting from sales completed on July 1, 2018)

[2013 Wis. Act 229](#) included provisions to allow a seller to claim a deduction on its sales and use tax return for the amount of any bad debt that the lender writes off as uncollectible in the lender's books and records. To claim the deduction for the lender's bad debt, the bad debt must be eligible to be deducted as a bad debt for federal income tax purposes, regardless of whether the lender is required to file a federal income tax return. A seller would also be allowed to compute the bad debt deduction using an estimate, if the department approves the method for computing the estimate.

The following changes were made in 2017 Wis. Act 59:

- The effective date of the bad debt provisions in 2013 Wis. Act 229 has been postponed to July 1, 2078.
- The bad debt provisions only apply to bad debts resulting from sales completed on July 1, 2078 and thereafter.

For sales completed prior to July 1, 2078, a seller is not allowed to claim a bad debt deduction for amounts that the lender writes off as uncollectible in its books and records.

4. Occasional Sales Exemption Expanded

([2017 Wis. Act 59](#), renumber sec. 77.51(9)(a) to 71.51(9)(a)1. and create sec. 77.51(9)(a)2., first applies to sales beginning January 1, 2018)

Current law exempts the occasional sale of taxable products and services from sales and use tax. "Occasional sales" are isolated and sporadic sales of taxable products and services where the infrequency, in relation to the other circumstances, support the inference that the seller is not pursuing a vocation, occupation, or business or partial vocation or occupation or part-time business as a vendor of taxable products or services (sec. 77.51(9), Wis. Stats.)

Beginning with sales made in 2018, the statutory definition of "occasional sales" presumes a seller is not pursuing a full- or part-time vocation, occupation, or business as a vendor of taxable products or taxable services if the seller's total taxable sales are less than \$2,000 during a calendar year.

Prior to January 1, 2018, the threshold provided by rule is \$1,000. If a seller holds or is required to hold a seller's permit, its sales do not qualify as exempt occasional sales (with an exception for persons who hold a seller's permit solely for bingo sales).

5. Internet Access Services No Longer Taxable As of July 1, 2020

([2017 Wis. Act 59](#), repeal secs. 77.52(2)(a)5.a. and 77.522(4)(h), effective July 1, 2020)

Charges for Internet access services are no longer subject to sales and use tax, beginning July 1, 2020.

For sales that occur prior to July 1, 2020, charges for Internet access services continue to be subject to sales and use tax when the customer's place of primary use is in Wisconsin. "Place of primary use" is defined in sec. 77.522(4)(a)9., Wis. Stats., to mean the residential street address or the primary business street address of the customer. For mobile telecommunications services, "place of primary use" means a street address within the licensed service area of the home service provider.

CAUTION: Taxable products and services purchased over the Internet continue to be subject to Wisconsin sales or use tax on and after July 1, 2020.

6. Exemptions for Beekeeping

([2017 Wis. Act 59](#), amend secs. 77.51(13)(o), and 77.54(3)(a), (3m)(intro.) and (L), (30)(a)3. and 5., and (33), and create secs. 77.51(1bm) and 77.54(3m)(hm), effective December 1, 2017)

The definition of "farming" is amended to include beekeeping.

"Beekeeping" means the business of moving, raising, producing, and other management of bees or bee products, regardless of the number of hives of bees managed.

Previously, "farming" was defined by rule to include raising of bees and producing honey products by a beekeeper of 50 or more hives.

7. Exemption for Farm-Raised Fish

([2017 Wis. Act 59](#), amend sec. 77.52(13) and create sec. 77.54(66), effective September 23, 2017)

Effective September 23, 2017, sales of farm-raised fish sold to either of the following are exempt from sales and use taxes:

- A fish farm that is registered with the Department of Agriculture, Trade and Consumer Protection (DATCP) under sec. 95.60(3m), Wis. Stats., or
- A person who holds a valid permit under sec. 29.736, Wis. Stats., for the stocking of fish.

"Farm-raised fish" is defined in sec. 95.001(1)(ah), Wis. Stats., to mean any fish egg that is present on a fish farm or any fish that is reared on a fish farm.

"Fish farm" is defined in sec. 95.001(1)(aj), Wis. Stats., to mean a facility at which a person hatches fish eggs or rears fish for the purpose of introduction into the waters of the state, human or animal consumption, permitting fishing, use as bait or fertilizer or any other purpose specified by the department by rule or for sale to another person to rear for one of those purposes.

8. Exemption for Prepared Food

([2017 Wis. Act 59](#), create sec. 77.54(20n)(d), effective September 23, 2017)

A sales and use tax exemption is created for sales of certain prepared food that is manufactured and sold by the same retailer at a different location from where the prepared food is manufactured. The exemption applies to prepared food that (1) is sold by the retailer in a frozen state without eating utensils (i.e., plates, bowls, knives, forks, spoons, glasses, cups, napkins, straws), or (2) consists of more than 50% yogurt.

The prepared food cannot be candy, a soft drink, or a dietary supplement to qualify for this exemption. In addition, the prepared food must be manufactured by the retailer at a building assessed as manufacturing property under sec. 70.995, Wis. Stats., or would be assessed as manufacturing if located outside Wisconsin. This exemption does not apply if the retailer makes any retail sales of prepared food at the building where the prepared food is manufactured.

9. Exemption for Video and Electronic Games Sold to Amusement Device Operators

([2017 Wis. Act 59](#), create sec. 77.54(65m)(a)1. and (b), effective December 1, 2017)

Effective December 1, 2017, an exemption from sales and use tax is created for a video or electronic game sold in a tangible form to a person who provides a taxable service through an amusement device if the video or electronic game is used exclusively for the amusement device.

Current law, sec. 77.54(50), Wis. Stats., provides an exemption for sales and use taxes for specified digital goods and additional digital goods if the tangible form of the product is exempt. Therefore, a video or electronic game sold as a digital good that is transferred electronically to a person in the

business of providing a taxable service through an amusement device will also be exempt if the video or electronic game is used exclusively for the amusement device.

For purposes of this exemption, the video or electronic game is a separate sale from the amusement device through which the game is played if the sales price of the video or electronic game is separately stated on the invoice, bill of sale, or similar document that the seller gives to the purchaser.

10. Exemption for Prizes from Amusement Devices

([2017 Wis. Act 59](#), create sec. 77.54(65m)(a)2. and (b), effective December 1, 2017)

Effective December 1, 2017, a sales and use tax exemption is created for tangible personal property sold to a person who provides a taxable service through an amusement device if the property is used exclusively as a prize awarded or transferred through the use of the amusement device.

For sales prior to December 1, 2017, the amusement device operator may purchase prizes awarded to customers through the use of amusement devices without tax for resale.

CAUTION: The amusement device operator is the consumer of tangible personal property that is used to play the amusement devices but not awarded as a prize through the use of the amusement device. Therefore, the amusement device operator is required to pay Wisconsin sales or use tax on its purchase of such property (e.g., paper tickets dispensed from the amusement device and redeemed for prizes, tokens used to play the amusement device). This property is not included in this exemption and cannot be purchased without tax before or after December 1, 2017.

11. Exemption for Tournament and League Entry Fees Used As Prize Money

([2017 Wis. Act 59](#), create sec. 77.54(65m)(a)3., effective December 1, 2017)

Effective December 1, 2017, a sales and use tax exemption is created for admission fees paid by participants to enter a tournament or league if the fees are advertised and set aside as prize money.

Currently, by rule, taxable receipts for tournament or league entry fees (i.e., admissions) may be reduced by the amount advertised and set aside for prize money. Therefore, the tax treatment is not changed as a result of this exemption.

12. Exemption Expanded for Construction Contracts

([2017 Wis. Act 59](#), renumber sec. 77.54(60)(a) to 77.54(60)(d)(intro.) and 77.54(60)(c) to 77.54(60)(c)(intro.) and amend as renumbered, amend secs. 77.51(2), 77.52(2)(a)10., (2m)(b), and 77.54(60)(b), and create secs. 77.51(12t) and 77.54(60)(bm), (c)2., (d)2., and 3., first applies to contracts entered into or extended, modified, or renewed on December 1, 2017)

The lump sum contract exemption for contractors has been expanded to include sales and purchases by subcontractors. Sales of products sold by contractors and subcontractors as part of a real property construction contract, which now includes time and materials contracts, are exempt from tax if the taxable products are less than 10% of the total contract price. The contractor or subcontractor is the consumer of the materials and must pay sales or use tax on its purchase of materials used. (See Exception, below.)

"Construction contract" means a contract to perform real property construction activities and to provide products.

"Prime contractor" means a contractor who enters into a construction contract with an owner or lessee of real property, except for leased property under sec. 77.52(1)(c), Wis. Stats., to perform real property construction activities on the real property.

"Subcontractor" means a contractor who enters into a construction contract with a prime contractor or another subcontractor.

Exception: If the construction contract is entered into with an entity that is exempt from tax under sec. 77.54(9a), Wis. Stats., the contractor may purchase without tax for resale the taxable products sold by the contractor as part of the construction contract with the exempt entity that are not consumed by the contractor in real property construction activities. The contractor is still the consumer of all taxable products used by the contractor in real property construction activities.

For contracts entered into prior to October 1, 2013, if the taxable products accounted for 10 percent or less of the total contract amount in a contract for real property construction activities AND no separate charge was made in any document provided to the customer for the taxable products, the tax was based on contractor's cost of the taxable products. If a separate charge was made in any document provided to the customer, including a contract, contract addendum, appendix, or payment request, for any of the taxable products or services, the separate charge was subject to tax.

For contracts entered into October 1, 2013 through November 30, 2017, the contractor is the consumer of the taxable products provided in a lump sum contract if the total sales price of the taxable products is less than 10 percent of the total sales price of the contract, regardless of whether the contractor separately itemizes the charges for taxable products in a schedule of values or similar document that is provided to its customer.

13. Expand List of Qualifying Exempt Entities for Building Materials Exemption

([2017 Wis. Act 59](#), amend sec. 77.54(9m), first applies to contracts entered into on July 1, 2018)

The building materials exemption for contracts with certain exempt entities is expanded to include technical colleges, any institution or campus in the University of Wisconsin System, and the University of Wisconsin-Extension as qualifying exempt entities.

Section 77.54(9m), Wis. Stats., provides a sales and use tax exemption for the sale of building materials sold to a construction contractor who, in fulfillment of a real property construction activity, transfers the building materials to qualifying exempt entities, if the building materials become part of a facility in WI owned by the exempt entity. Refer to [Wisconsin Tax Bulletin 192](#) – January 2016, pages 19-21 for more information about this exemption.

For contracts entered into on July 1, 2018 and thereafter, a qualifying exempt entity will include:

- A technical college district
- The Board of Regents of the University of Wisconsin System
- An institution, as defined in sec. 36.05(9), Wis. Stats.
- A college campus, as defined in sec. 36.05(6m), Wis. Stats.
- The University of Wisconsin-Extension

Previously, this exemption did not apply to a public college, university or technical college, even if the entity held a Wisconsin Certificate of Exempt Status (CES) number.

14. Short-Term Lodging Marketplaces

([2017 Wis. Act 59](#), amend sec. 66.0615(1m)(a) and create sec. 66.0615(1)(bs), (de), (df), (di), (dk), and (5), effective September 23, 2017)

A lodging marketplace is required to register with the Department of Revenue for a license to collect taxes imposed by the state related to a short-term rental and to collect room taxes imposed by a municipality. After a lodging marketplace applies for and receives the license, it must do all of the following:

- Collect sales and use taxes from the occupant and forward to the Department of Revenue
Note: The marketplace must also register with the department for a seller's permit
- Collect room taxes from the occupant and forward to municipality
Note: The marketplace may need to register with the municipality for a permit
- Notify the owner that taxes have been collected

"Lodging marketplace" means an entity that provides a platform through which an unaffiliated 3rd party offers to rent a short-term rental to an occupant and collects the consideration for the rental from the occupant.

"Occupant" means a person who rents a short-term rental through a lodging marketplace.

"Short-term rental" means a residential dwelling that is offered for rent for a fee and for fewer than 29 consecutive days.

The sales and use tax statutes were previously amended in [2015 Wis. Act 170](#) to apply to off-highway motorcycles in the same manner as they apply to similar registered vehicles. Some provisions were overlooked and are now amended for consistency.

- The definition of a retailer is amended to include persons who sell off-highway motorcycles.

16. Exemption for Public Service Commission Surcharges Amended

([2017 Wis. Act 59](#), amend sec. 77.54(37), effective September 23, 2017)

The sales and use tax exemption for the surcharge established by the Public Service Commission under sec. 256.35(3m)(f), Wis. Stats., for customers of wireless providers is eliminated. This surcharge

was repealed in the Act, so the exemption is no longer needed. Revenues collected for countywide systems under sec. 256.35(3), Wis. Stats., continue to be exempt from sales and use taxes.

17. Statistical Sampling

([2017 Wis. Act 59](#), amend sec. 77.59(2) and create sec. 77.59(2g), effective March 1, 2018)

- That any person with less than \$10,000,000 in annual sales during any year at issue during a field audit may choose to have the audit conducted using statistical sampling
- The number of transactions necessary to qualify for statistical sampling
- The maximum sample size

If a person applies for an extension and shows good cause why an extension should be granted, the department may grant a 30-day extension for filing a rent and royalty statement or statement of nonwage payment under ch. 71, subch. XI, Wis. Stats. Under prior law, a 60-day extension was available.

3. Electronic Filing of Wage Statements and Information Returns – Threshold Lowered

If a single-owner entity is disregarded as a separate entity from its owner for federal income tax purposes under sec. 7701, IRC, it is also disregarded for Wisconsin income/franchise and sales/use tax purposes. The Act provides that a notice from the Department of Revenue to the owner or to the disregarded entity is considered a notice sent to both. Both are liable for any amounts due as specified in the notice. This treatment applies to all laws administered by the department.

2. Inconsistent Estate Basis Reporting Penalty

([2017 Wis. Act 59](#), create sec. 71.83(1)(cf), effective September 23, 2017)

If any portion of an underpayment of tax required to be shown on a Wisconsin return is the result of an inconsistent estate basis reporting, an amount equal to 20 percent of that portion of the underpayment must be added to the tax. Inconsistent estate basis reporting occurs if the property basis claimed on a Wisconsin return exceeds the property basis determined under sec. 1014(f), IRC, which provides that the basis must be consistent with the federal estate tax return.

The department must assess, levy, and collect the penalty in the same manner as it assesses, levies, and collects taxes.

Report on Litigation

Summarized below are recent significant Wisconsin Tax Appeals Commission (WTAC) and Wisconsin Court decisions.

Excise Tax

Motor fuel tax - urban mass transportation of passengers. *Wisconsin Coach Lines, Inc. vs. Wisconsin Department of Revenue* (Wisconsin Tax Appeals Commission, June 21, 2017).

The issue is whether Wisconsin Coach Lines, Inc. (WCL) is entitled to the diesel fuel exemption provided in sec. 78.01, Wis. Stats., for the urban mass transportation of passengers.

WCL's southeastern Wisconsin services involve the transportation by bus of passengers from Waukesha County to Milwaukee County, between various locations in Milwaukee County, from Milwaukee County to Racine County, from Racine County to Kenosha County, and from Kenosha County to Chicago area airports. The route is also run in reverse order. Passengers can purchase tickets for all or any part of the route.

WCL claimed the tax exemption for tax paid on diesel fuel used in providing the southeastern Wisconsin services for the urban mass transportation of passengers. WCL did not claim the exemption for tax paid on diesel fuel used in the transportation from the southern border of Racine County to Kenosha County or Kenosha County to Chicago, or the respective return transports. Upon audit, the Wisconsin Department of Revenue assessed tax on the fuel previously claimed as exempt and disallowed a motor fuel tax refund claim filed directly with the department.

An exemption exists for diesel fuel sold to a common motor carrier used in the operation of a motor vehicle for the urban mass transportation of passengers. Both parties agreed that WCL meets the definition of "common motor carrier" and that WCL meets the passenger capacity requirement to operate in the urban mass transportation of passengers. The dispute involves the application of the geographic requirements of the definition of "urban mass transportation of passengers" in sec. 71.38, Wis. Stats. The definition requires that the transportation must take place "within a county having a population of 500,000 or more or within such county and the counties contiguous thereto."

WCL argued that its transportation services fit squarely within the definition of "urban mass transportation of passengers." The department contended that the exemption did not apply, because the statute requires the transport of passengers to occur *entirely within* the geographic areas identified in the statute.

The Commission concluded that sec. 78.38, Wis. Stats., which WCL relied on in claiming the fuel tax exemption for transporting passengers in Milwaukee, Waukesha, and Racine counties is clear and precise. "Urban mass transportation of passengers" includes the transportation of passengers when such transportation "takes place...within a county having a population of 500,000 or more or within such county and the counties contiguous thereto..." WCL is entitled to the exemption it claimed under the clear language of the statute.

The department did not appeal this decision.

Occupational tax imposed upon the selling of intoxicating liquor. *Arty's, LLC vs. Wisconsin Department of Revenue* (Wisconsin Tax Appeals Commission, May 19, 2016, affirmed by the Circuit Court of Waupaca County, April 12, 2017).

The issue is the actual volume of a product containing alcohol that is subject to Wisconsin's occupational tax imposed on selling intoxicating liquor provided in sec. 139.03(2m), Wis. Stats.

Arty's is a permitted Wisconsin rectifier of intoxicating liquor. The rectifier purchases distilled spirits, mixing them with soda, water and flavoring ingredients to produce and bottle pre-mixed cocktails. Arty's contends that the liquor tax on each bottle could be collected only on the volume of distilled spirits in each bottle (1.2 ounces), rather than the full volume contained in each bottle (7 ounces). The department's position is that the entire amount of Arty's premixed alcohol beverage is subject to tax.

Section 139.03(2m), Wis. Stats., imposes an occupational tax of 85.86 cents per liter on "intoxicating liquor," defined in sec. 139.01(3), Wis. Stats., to include "...all ardent, spirituous, distilled or vinous liquors, liquids, or compounds, whether medicated proprietary, patented, or not, and by whatever name called, containing one-half of one percent or more alcohol by volume, which are fit for beverage purposes, but does not include fermented malt beverages..."

The Tax Appeals Commission (TAC) found that because the final product contained in the bottles sold by Arty's is an intoxicating liquor, the full volume of the bottle is subject to the liquor tax. The Circuit Court agreed with the decision of the TAC and affirmed its findings.

The taxpayer has appealed this decision.

Corporation Franchise and Income Tax

Allocation and apportionment – sales factor – licensing software to original equipment manufacturers (OEMs). *Microsoft Corporation vs. Wisconsin Department of Revenue* (Wisconsin Tax Appeals Commission, August 10, 2017).

The issue is whether the royalties paid by OEMs located outside of Wisconsin to Microsoft are treated as Wisconsin sales for purposes of Microsoft's Wisconsin sales factor.

Microsoft develops, licenses, manufactures, and distributes computer software, and provides related services. Microsoft entered into licensing agreements with OEMs to install Microsoft products on computers that the OEMs resell, with the OEMs determining the computer configuration, software, and price. The OEMs assemble computer systems for sale to retailers and end users such as Dell and Hewlett Packard.

Microsoft entered into license agreements with the OEMs that grant them the authority to make a copy of Microsoft's software to preinstall on its computers, make a copy of the software to create recovery media for backup purposes, and distribute software that has been preinstalled on customer computers. Microsoft receives royalties from the OEMs based on one of two methods – per system basis and per copy basis. Under the per system basis, payments are calculated based on the number of computers the OEM assembles, regardless if Microsoft software is ever loaded on the computer. Under the per copy basis, Microsoft receives payments based on the number of software copies made, regardless if the computers are sold.

Once the OEMs assembled the computers, they are sold to end-users or retailers such as Best Buy. The OEMs are responsible for servicing and warranting the computers they sell. Microsoft's business

operations dealing with OEMs is primarily located in Redmond, Washington and Reno, Nevada. Microsoft does not have a significant physical presence in Wisconsin.

Pursuant to sec. 71.25(9)(df), Wis. Stats. (2007-08), the department issued an assessment to Microsoft for taxable years June 30, 2006 through June 30, 2009, to include OEM royalty payments in Wisconsin gross receipts when the end-user uses the software in Wisconsin. The department argued that royalty payments from the OEMs are considered in Wisconsin if the purchaser or licensee uses the software at a location in the state.

Microsoft argued that sec. 71.25(9)(df), Wis. Stats. (2007-08), does not apply because Microsoft's gross receipts from the royalty income are not from the use of computer software in Wisconsin since the royalties are generated from out-of-state OEMs.

The Tax Appeals Commission concluded that sec. 71.25(9)(df), Wis. Stats. (2007-08), does not apply to Microsoft because the royalties are from OEMs who do not use the software in Wisconsin. The OEMs are Microsoft's customers; the end users are not customers of Microsoft because they do not purchase software and licenses from them. The department erred when it looked past the OEMs to sub-licensees as the end users of the software. The Commission found that sec. 71.25(9)(d), Wis. Stats. (2007-08), applies and that the sales are Wisconsin sales if the income-producing activity is performed in the state. Microsoft licenses the software to the OEMs, which are all located outside Wisconsin, so none of the royalty payments from the OEMs are Wisconsin sales. In addition, Microsoft does not sell computers to the end-user, the OEMs do, so the OEM sales to customers in Wisconsin are not considered gross receipts of Microsoft. The Commission concluded by stating that Microsoft's receipts are not measured by the sales of its customers or its customers' customers.

The department has appealed this decision.
